Manpower Policies for the Use of Science and Technology in Development discusses several factors to consider when making human-resource-related policies in the science and technology industries. The book is comprised of eight chapters; each chapter tackles a specific area of concern regarding manpower policies. Chapter 1 covers the frameworks and definitions and discusses topics such as the significance of manpower for development. Chapter 2 deals with demand, supply, and forecasting, and Chapter 3 reviews the national structures for science and technology. The fourth chapter covers domestic training institution, including the roles and effectiveness, while the fifth chapter talks about the creation and evolution of domestic institutions. Chapter 6 then discusses the multinational agencies and transnational firms. Chapter 7 tackles the concept of brain drain, and Chapter 8 discusses the conclusion and provides recommendations.

The book will be of great interest to professionals in the science and technology industries, especially those who hold management positions.
