Las tres eras de la imagen (Estudios Visuales) (Spanish Edition) José Luis Brea

Dividido en tres grandes fases, las de la imagen-materia, el film y la imagen-electrónica, el presente libro analiza cómo las distintas formas técnicas propician modelos diferenciales de producción, distribución y recepción de imágenes. El resultado es un ensayo único en el panorama español, pues, si bien es relativamente frecuente encontrar «historias» de una u otra de las prácticas de producción de imaginario en cada una de las eras que en el libro se describen ?«historias de la pintura», del «cine» o incluso del «arte electrónico» o la «imagen electrónica»? , no existe ninguna «historia de la imagen» como tal que la afronte desde una perspectiva teórico-crítica atendiendo a cómo en ella se organizan las narrativas generales que regulan su fuerza simbólica más característica.
