The Gospel of Beauty in the Progressive Era: Reforming American Verse and Values (Palgrave Studies in Cultural and Intellectual History) Lisa Szefel

In *The Gospel of Beauty in the Progressive Era*, Lisa Szefel investigates the place of late nineteenth- and early twentieth-century poetry in transmitting ideas about political reform during the Progressive Era. It charts the work of poets, critics, and editors who created an institutional infrastructure of organizations, magazines, and prizes to nurture writers who addressed the problems wrought by unregulated industrial capitalism. Many of these figures were African Americans, women, and immigrants who forged literary networks and popularized political ideas that contributed in unrecognized ways to both the development of literary Modernism and a progressive articulation of rights.
