Feminism and Men Nikki van der Gaag

Feminism has changed the world; it is radically reshaping women's lives. But what about men? They still hold most of the power in the economy, in government, in religions, in the media and often in the family too. At the same time, many men are questioning traditional views about what it means to be a man. Others resent the gains women have made and want to turn back the clock.

Feminism and Men asks: how might feminism improve the lives of men as well as women? And is there a place for men in the feminist story?
