The Coral Island: A Tale of the Pacific Ocean Robert Michael Ballantyne

This story follows the adventures of three boys who are the only survivors of a shipwreck in the South Pacific. They end up on an uninhabited island where they find plentiful food and build a shelter, but they are not alone in the ocean. They are visited by Polynesian Islanders, pirates, and missionaries leading to more adventures. After saving the life of members of a Polynesian group, one of the boys is kidnapped by pirates. He sails around the South Pacific until once again being shipwrecked, after which he manages to be reunited with his friends and again meets the Islanders whose lives they saved. Eventually they are rescued and sail home with missionaries, but not after encountering further adventures. One of few books written at that time for young people featuring young people, and inspired by Treasure Island, it's non stop adventure and excitement.
