Suppose the narrative was changed. What if the box-cutter hijackers were replaced by an entirely different crew of bad guys responsible for bringing down the World Trade Towers? Suppose, further, that this was not just the plot of riveting fiction, but a tapestry of carefully explained events that actually happened, with all characters supplied clear motives, and each hair-raising assertion backed up with a thorough documentation of sources? Such is the substance within the covers of this book.

The Mossad played a major role in the 9/11 terrorism in part to distract people from the secret society known as the Brotherhood of Death.

To fully understand why there is a secret war against the Jews and all children of God, read this book and for additional information read Defeating the Brotherhood of Death (also available on Amazon).
