IMMUNOLOGY FATHIMUNISA BEGUM

A weak immune system is susceptible to various diseases and infections caused by foreign bodies like bacteria, fungus and viruses. From a trivial cold to a serious cancer—one is prone to all if the immune system is not strong enough to fight against these foreign bodies. This text gives a comprehensive account on human immune system, its basics, types, structure and functions of antibodies, and the advanced topics of Immunology like immunodeficiencies and immunotherapy.

The book explains physiological functioning of the immune system in states of both health and diseases; malfunctions of the immune system in immunological disorders (autoimmune diseases, hypersensitivities, immune deficiency, transplant rejection); the physical, chemical and physiological characteristics of the components of the immune system in vitro, in situ, and in vivo, in detail.

The text embodies a new insight into immunological concepts in simple, straightforward and comprehensive language with lucid and clear illustrations. It covers up-to-date information on immunoprophylactic, immunodiagnostic and immunotherapeutic methods.

The neatly drawn figures complement the theories well, enabling the students to grasp the concepts readily. The Review Questions at the end of the chapters help the students to think critically and answer. The book also incorporates competitive examination questions.

The book is intended for the undergraduate and postgraduate students of Biotechnology, Zoology, Microbiology, Biochemistry and Immunology. Besides, the book will be equally beneficial for the students appearing for competitive examinations like UGCNET, CSIR, SLET and civil services.

From reader reviews:

George Nygaard:

Spent a free time for you to be fun activity to try and do! A lot of people spent their down time with their family, or their friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your own free time/ holiday? Could be reading a book may be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to try out look for book, may be the book untitled IMMUNOLOGY can be fine book to read. May be it could be best activity to you.

Darren Meekins:

This IMMUNOLOGY is great book for you because the content that is certainly full of information for you who always deal with world and get to make decision every minute. This specific book reveal it data accurately using great coordinate word or we can declare no rambling sentences included. So if you are read the idea hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but difficult core information with lovely delivering sentences. Having IMMUNOLOGY in your hand like having the world in your arm, data in it is not ridiculous just one. We can say that no reserve that offer you world inside ten or fifteen moment right but this guide already do that. So , this really is good reading book. Hello Mr. and Mrs. occupied do you still doubt that will?

Rachel Garber:

That reserve can make you to feel relax. This kind of book IMMUNOLOGY was multi-colored and of course has pictures on the website. As we know that book IMMUNOLOGY has many kinds or category. Start from kids until youngsters. For example Naruto or Investigator Conan you can read and believe that you are the character on there. Therefore , not at all of book are generally make you bored, any it offers up you feel happy, fun and unwind. Try to choose the best book to suit your needs and try to like reading that.

Loretta Yoder:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from your book. Book is created or printed or created from each source that filled update of news. On this modern era like currently, many ways to get information are available for an individual. From media social like newspaper, magazines, science reserve, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just searching for the IMMUNOLOGY when you desired it?
