Philip Blosser and Thomas Nenon The essays in the volume were assembled in honor of Lester Embree, who celebrated his 70th birthday on January 9, 2008. A preview of this volume was presented to Professor Embree at a reception sponsored by the Center for Advanced Research in Phenomenology that was held in his honor at the 2008 meeting of the Husserl Circle at Marquette University in Milwaukee, Wisconsin. The title *Advancing Phenomenology* is purposely ambiguous. On the one hand, these essays document the progress that phenomenology as an ongoing and vibrant movement has made in the period of over a century since its inception. They illustrate the advance of phenomenology both in terms of the range of topics represented in this volume and in terms of the disciplinary and geographical diversity of the scholars who have contributed to it. The topics range from scholarly appropriations of past achievements in phenomenology, to concrete phenomenological investigations into ethics, gender, and environmental philosophy, as well as phenomenological reflections on the foundations of disciplines outside philosophy such as psychology, history, the social sciences, and archeology. The contributors come both from philosophy departments and from a number of disciplines outside of philosophy such as sociology, psychology, and archeology; and they come from all around the world – from North America, from Western and Eastern Europe, from Latin America, and from several different countries in Asia.
