PLANIFICACIÓN TERRITORIAL (OBRAS SINGULARES) (Spanish Edition) Félix Pillet

Planificación territorial aparece cuando se cumplen treinta años del Estado de las Autonomías, con sus excesos y ausencias, siendo la planificación la mejor solución en tiempos de crisis. La obra sugiere dos propuestas de planificación territorial en el subestado o Comunidades Autónomas, la primera afecta a la escala subregional o supramunicipal, a partir de los centros urbanos rectores (policentrismo) con sus correspondientes Áreas Funcionales Urbanas. La segunda hace referencia a la escala municipal, donde, tras apoyar la urgente reagrupación de pequeños municipios, se propone unificar o aproximar la planificación urbanística o tradicional.
