Emergency Vehicle Accidents: Prevention, Reconstruction and Survey of State Law Stephen S Solomon, Paul F Hill

What causes emergency vehicle accidents, especially with sirens and flashing lights in use? Where do they most often occur? What can emergency services personnel do to prevent these accidents? And, finally, what laws govern the use of these vehicles?

Stephen Solomon, an optometrist who has studied perceptual issues for over thirty years, has updated Part One of this complete guide to the safety issues surrounding emergency vehicles. You will learn about the problems with flashing lights, sirens, retroreflective tape, and the color of the vehicle. Many of these safety devices are used in a way that limits their effectiveness. Part Two of this book discusses the law of emergency vehicles on emergency runs.

The drivers of police vehicles, fire trucks, and ambulances have the right to ignore, with due caution and acting without reckless disregard, the rules of the road. This section provides a thorough study of the statutory and case law in the fifty states plus the District of Columbia.
