Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003 Lisa C. Donohoe

Demands for ground and surface water have increased in the upper Rio Hondo Basin due to increases in development and population. Local governments are responsible for land-use and development decisions and, therefore, the governments need information about water resources in their areas. Hydrologic data were compiled for the upper Rio Hondo Basin and water-level data were collected during two synoptic measurements in March and July 2003. Water-level data from March 2003 were contoured and compared with contours constructed in 1963. The 5,600-, 5,700-, and 5,800-foot March 2003 contours indicate that water levels rose. The 5,500-foot contour for March 2003 indicates a decline in water level. The 5,400-foot contour of March 2003 and the 1963 contour mostly coincide, indicating a static water level. The 5,300- and 5,200-foot contours for March 2003 cross the 1963 contours, indicating a decline in water levels near the Rio Ruidoso but a rise in water levels near the Rio Bonito. In eight hydrographs, 2003 water levels are shown to be higher than water levels from the mid- to late 1950's in five of the eight wells. For the same period of record, water levels in the three remaining wells were lower. Rising and declining water levels were highest in the northern part of the study area; the median rise was 4.01 feet and the median decline was 3.51 feet. In the southern part of the study area, the median water-level rise was 2.21 feet and the median decline was 1.56 feet.

From reader reviews:

Aaron Mullen:

Within other case, little folks like to read book Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003. You can choose the best book if you want reading a book. Providing we know about how is important any book Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003. You can add knowledge and of course you can around the world with a book. Absolutely right, because from book you can learn everything! From your country until finally foreign or abroad you will be known. About simple factor until wonderful thing you can know that. In this era, we can easily open a book or maybe searching by internet product. It is called e-book. You should use it when you feel bored to go to the library. Let's go through.

Jesus Gilbert:

Don't be worry when you are afraid that this book can filled the space in your house, you could have it in e-book technique, more simple and reachable. That Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003 can give you a lot of buddies because by you investigating this one book you have matter that they don't and make anyone more like an interesting person. That book can be one of a step for you to get success. This guide offer you information that perhaps your friend doesn't recognize, by knowing more than some other make you to be great men and women. So , why hesitate? Let me have Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003.

Steven Williams:

What is your hobby? Have you heard that will question when you got college students? We believe that that problem was given by teacher for their students. Many kinds of hobby, Everybody has different hobby. And you know that little person just like reading or as looking at become their hobby. You have to know that reading is very important in addition to book as to be the matter. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You see good news or update concerning something by book. Amount types of books that can you choose to use be your object. One of them is this Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003.

Phyllis Belser:

Many people said that they feel bored stiff when they reading a publication. They are directly felt this when they get a half parts of the book. You can choose the actual book Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003 to make your current reading is interesting. Your own skill of reading proficiency is developing when you such as reading. Try to choose easy book to make you enjoy to learn it and mingle the opinion about book and studying especially. It is to be 1st opinion for you to like to start a book and examine it. Beside that the reserve Selected hydrologic data for the upper Rio Hondo basin, Lincoln County, New Mexico, 1945-2003 can to be a newly purchased friend when you're

sense alone and confuse in what must you're doing of these time.
