## **Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications)**

Since the search for hydrocarbon resources in the Arctic started in the 1930's the exploration activity has expanded into many of the Arctic regions, and several of the Arctic sedimentary basins have proven to be important sources of hydrocarbon. Nevertheless, the Arctic continental margins and adjacent onshore areas are still largely unexplored in the context of petroleum, and are therefore considered to be one of the few regions in the world where significant undiscovered sources of hydrocarbon may exist. The aim of the book is to give an updated overview of the geology of the Arctic sedimentary basins and their petroleum potential. Although the different basins vary significantly as regards sedimentary fill and tectonic evolution, many of the basins share some of the characteristics needed to become prolific oil and gas provinces.

The book contains 45 extensively illustrated articles. It starts with papers on the Mesozoic source rocks, and oceanic natural gas clatrates in the Arctic, respectively. Then follow articles on the regional and petroleum geology of the main regions; Greenland, North American Arctic, Soviet Arctic and the Barents Sea. Particular emphasis is placed on the Barents Sea. The two last chapters comprise articles on salt dynamics and methods. The book closes with a paper on international law in the Arctic. This volume will be of interest to both students and professional earth scientists/petroleum explorationists working in the northern latitudes. It will allow the readers to stay abreast of the development in this climatic region of the world.

**From reader reviews:**

**Timothy Rocha:**

Spent a free a chance to be fun activity to try and do! A lot of people spent their free time with their family, or their friends. Usually they accomplishing activity like watching television, gonna beach, or picnic inside park. They actually doing same task every week. Do you feel it? Will you something different to fill your personal free time/ holiday? May be reading a book is usually option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of guide that you should read. If you want to test look for book, may be the book untitled Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications) can be great book to read. May be it might be best activity to you.

**Theodore Mullis:**

Playing with family in the park, coming to see the marine world or hanging out with pals is thing that usually you might have done when you have spare time, and then why you don't try matter that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications), you could enjoy both. It is excellent combination right, you still want to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't buy it, oh come on its referred to as reading friends.

**Debra Becnel:**

Do you like reading a publication? Confuse to looking for your selected book? Or your book ended up being rare? Why so many problem for the book? But virtually any people feel that they enjoy for reading. Some people likes reading through, not only science book but additionally novel and Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications) or perhaps others sources were given expertise for you. After you know how the truly amazing a book, you feel need to read more and more. Science guide was created for teacher or perhaps students especially. Those ebooks are helping them to put their knowledge. In various other case, beside science guide, any other book likes Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications) to make your spare time far more colorful. Many types of book like this one.

**Ann Amos:**

What is your hobby? Have you heard which question when you got students? We believe that that problem

was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. And you know that little person including reading or as reading become their hobby. You have to know that reading is very important and also book as to be the matter. Book is important thing to add you knowledge, except your own teacher or lecturer. You find good news or update with regards to something by book. Different categories of books that can you go onto be your object. One of them are these claims Arctic Geology and Petroleum Potential: Proceedings of the Norwegian Petroleum Society Conference, 15-17 August 1990, Tromso, Norway (Norwegian Petroleum Society Special Publications).
