## Empires at War: 1911-1923 (The Greater War)

Empires at War, 1911-1923 offers a new perspective on the history of the Great War. It expands the story of the war both in time and space to include the violent conflicts that preceded and followed the First World War, from the 1911 Italian invasion of Libya to the massive violence that followed the collapse of the Ottoman, Russian, and Austrian empires until 1923. It also presents the war as a global war of empires rather than a European war between nation-states.

This volume tells the story of the millions of imperial subjects called upon to defend their imperial governments' interest, the theatres of war that lay far beyond Europe, and the wartime roles and experiences of innumerable peoples from outside the European continent. Empires at War covers the broad, global mobilizations that saw African soldiers and Chinese labourers in the trenches of the Western Front, Indian troops in Jerusalem, and the Japanese military occupying Chinese territory. Finally, the volume shows how the war set the stage for the collapse not only of specific empires, but of the imperial world order writ large.
