Resurrecting Empire: Western Footprints and America's Perilous Path in the Middle East Rashid Khalidi

Begun as the United States moved its armed forces into Iraq, Rashid Khalidi's powerful and thoughtful new book examines the record of Western involvement in the region and analyzes the likely outcome of our most recent Middle East incursions. Drawing on his encyclopedic knowledge of the political and cultural history of the entire region as well as interviews and documents, Khalidi paints a chilling scenario of our present situation and yet offers a tangible alternative that can help us find the path to peace rather than Empire.

We all know that those who refuse to learn from history are doomed to repeat it. Sadly, as Khalidi reveals with clarity and surety, America's leaders seem blindly committed to an ahistorical path of conflict, occupation, and colonial rule. Our current policies ignore rather than incorporate the lessons of experience. American troops in Iraq have seen first hand the consequences of U.S. led "democratization" in the region. The Israeli/Palestinian conflict seems intractable, and U.S. efforts in recent years have only inflamed the situation. The footprints America follows have led us into the same quagmire that swallowed our European forerunners. Peace and prosperity for the region are nowhere in sight.

This cogent and highly accessible book provides the historical and cultural perspective so vital to understanding our present situation and to finding and pursuing a more effective and just foreign policy.

From the Hardcover edition.

Do you sometimes have book but you seldom get what it's facts concerning. Oh come on, that would not happen if you have this with your hand. The Enjoyable blend here cannot be questionable, just like treasuring beautiful island. Use you still want to miss the idea? Find this book as well as read it from right now!

Gerald Allen:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library or make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to at this time there but

nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Resurrecting Empire: Western Footprints and America's Perilous Path in the Middle East can make you really feel more interested to read.
