Studies on Mexican Paleontology: 24 (Topics in Geobiology) Francisco J. Vega, Torrey G. Nyborg, María del Carmen Perrilliat, Marisol Montellano-Ballesteros, Sergio R.S. Cevallos-Ferriz, Sara A. Quiroz-Barroso
This volume was cited as Best Seller in Geology according to Library Journal Academic Newswire, November 2006! The most relevant contributions on Mexican Paleontology are described by specialists. Diverse aspects of almost every fossil group are reviewed. Information on recent advances of important localities is provided. This book will offer updated information useful to the fields of stratigraphy, sedimentology, tectonics, paleobiogeography, paleoclimatology and evolution. The first comprehensive source of information about Mexican fossils in English. A very important added value to this book is the rather extensive bibliography of almost 1000 references related to the central topic, invaluable information which by itself constitutes a tribute to the memory of pioneer contributions by researchers that have worked in Mexico for the past two centuries
